Mrs. Virgie Murphy has been visiting her parents, F. A. Cornwell and wife.

ET THE SOLDIERS HAVE YOUR FLOUR

State Food Administrator Appeals to Loyal Tennesseans To Abstain from Using Wheat Flour and Give All To Feed Allies and Troops in France.

Nashville.—Through the county food administrators of more than half of the counties of the state, Dr. H. A. Morgan, federal food administrator in Tennessee, has issued an appeal to the people of Tennessee to turn over to the government, for the use of its army and navy and its allies, all the wheat flour that they can possibly spare. This flour will be paid for at a fair market price to be fixed by Dr. Morgan, after conference with those who are familiar with price conditions. It is expected that the merchants of the counties will finance the proposition—that is, they will pay for the flour as it is turned in, and then they will be reimbursed when the flour is loaded on cars for shipment to the United States grain corporation.

In making this appeal Dr. Morgan said: "The people of Tennessee can spare from their stocks of flour, I am sure, a carload or two for our government, in this crisis, without making a very great sacrifice. It would not inconvenience us very much if we did without flour altogether until the next harvest. In Grimes county, Texas, nearly everyone responded to the appeal, and three carloads went forward. We can do the same thing here."

The hoarding of wheat will not be tolerated by the food administration. There is now, in the judgment of Dr. Morgan, no reason why any farmer in Tennessee should continue to hold his wheat. A list of those who still have wheat on hand has been secured by the food administration, and where they will not respond to appeals to their patriotism the wheat is being taken over under requisition papers, as provided in the food control act. One farmer had 2,000 bushels and refused to part with it, and requisition papers were issued and the wheat taken over for the government.

To Abstain From Wheat.

Following a number of inspiring appeals from eloquent speakers, the women war workers of Tennessee to the number of more than 1,000 assembled at the capitol at Nashville, adopted a resolution pledging themselves to abstain as far as practicable from the use of wheat flour products until the next harvest, and in no event to use during any one month more than one and one-half pounds of wheat flour per person, the same to be carefully weighed. At a meeting of the district demonstration agents and war workers at Chattanooga a resolution that went even further was unanimously passed pledging absolute abstention from the use of wheat products until the next harvest, and declaring that each person present would seek to influence others to make the same resolution.

The meeting of district agents and women war workers at Chattanooga was a decided success and the members pledged enthusiastic co-operation in all of the war activities. J. I. Finney of Columbia represented the United States Food Administration, delivering a strong appeal to the women for conservation and service to the nation in this crisis.

On the call of the war emergency council of the National Bakers and Dr. H. A. Morgan, federal food administrator, the bakers of Tennessee to the number of about 40, representing all sections, from Bristol to Memphis, assembled at the Commercial club in Nashville and perfected a state organization by the election of Charles K. Evers of the American Bread company, Nashville, as president. The bakers were addressed by Dr. Morgan and J. I. Finney of the food administration. Full co-operation with the food administration was pledged and a technical committee of five nominated to act with the food administration in the interpretation of rules and regulations governing the bakers of the state. A number have joined since the organization and it is now representative of that interest.

Patriotism of Hotels.

Five of the leading hotels of Chattanooga have voluntarily gone on a wheatless ration until the next harvest, having agreed to eliminate all wheat products from their menus. Houston R. Harper, hotel representative of the food administration in Tennessee, is confident that a large number of hotels in other places in the state will make a similar resolution. At a meeting held at Chattanooga the hotels of the state were organized and full and hearty co-operation pledged to the food administration in the execution of its rules and regulations.

Maj. Rutledge Smith's efficient work as chairman of the council of defense of Tennessee has been recognized by the council at Washington and he has been asked to bring the organizations of other southern states up to the high standard of that of Tennessee.

It is generally conceded at Washington that Tennessee has one of the best war organizations in the Union. Not only have the heads of all the war organizations made good, but their work has been materially aided by the cordial co-operation that they have received from Gov. Rye, heads of state departments and the city and county officials of the state. The governor has been especially active in war work and is always at the command of any of the war organizations for any service that he can render.

DELCO-LIGHT

Increases Farm Efficiency

Fifty thousand Delco-Light plants in operation on American farms are saving at the most conservative estimate, an hour a day each—or over 18,000,000 work hours a year. That is equal to an army of 60,000 men working ten hours a day for a full month.

Delco-Light is a complete electric light and power plant for farms and suburban homes. It furnishes an abundance of clean, safe, economical light, and operates pump, churn, cream separator, washing machine and other appliances. It is also lighting rural stores, garages, churches, schools, army camps and railway stations.

The Plain Duty of Every American

Your duty, as an American citizen, is plain, definite, and imperative. Your sons and your neighbors' sons are going abroad to fight for their country, their flag, their homes—and for YOU.

They cannot fight without food, shoes, clothes, bread and bullets.

The Government looks to you for the money to buy these things. Your Duty is to lend—not give—this money.

It is more than Duty—more than patriotism—it is a privilege to buy War Savings Stamps

The money you pay for them will help win the war—help keep our soldiers fed, clothed, armed, and protected—help keep your country safe for Democracy.

The United States Government guarantees to pay your money back. It pays you interest on your money, 4 per cent, compounded quarterly.

You can buy War Savings Stamps at post-offices, banks, and other licensed selling agencies.
